1 Introduction

1.The things from the documentsClass to usePackeage is called preamble.
2.we use blackshelsh to say that we are going to use a command
3.from begin to end is the part where we write code and equation. Let's begin
with formula $e^{i\pi} + 1 = 0$.

$$e = \lim_{0 \to \infty} \left(1 + \frac{1}{n}\right)^n = \lim_{n \to \infty} \frac{n}{\sqrt[n]{n!}}$$

we can do another:

$$e = \sum_{n=0}^{\infty} \frac{1}{n}$$

"twiter" *bold or emphasize* important
